FIG. 1 is a top view of a portable electronic device 10. The device has a rectangular body with rounded corners. A large circular display area is located in the center. To the left of the display is a circular control knob with a square-shaped button in the center. Above the display is a rectangular display area. To the right of the display are four circular buttons arranged in a vertical column. The device is shown with a carrying strap on the left side. Reference numerals 10, 37, and 160 are used to identify the device and its components.
